

Give Your Customers a Responsible Choice: Partner with ABSC Approved Recyclers

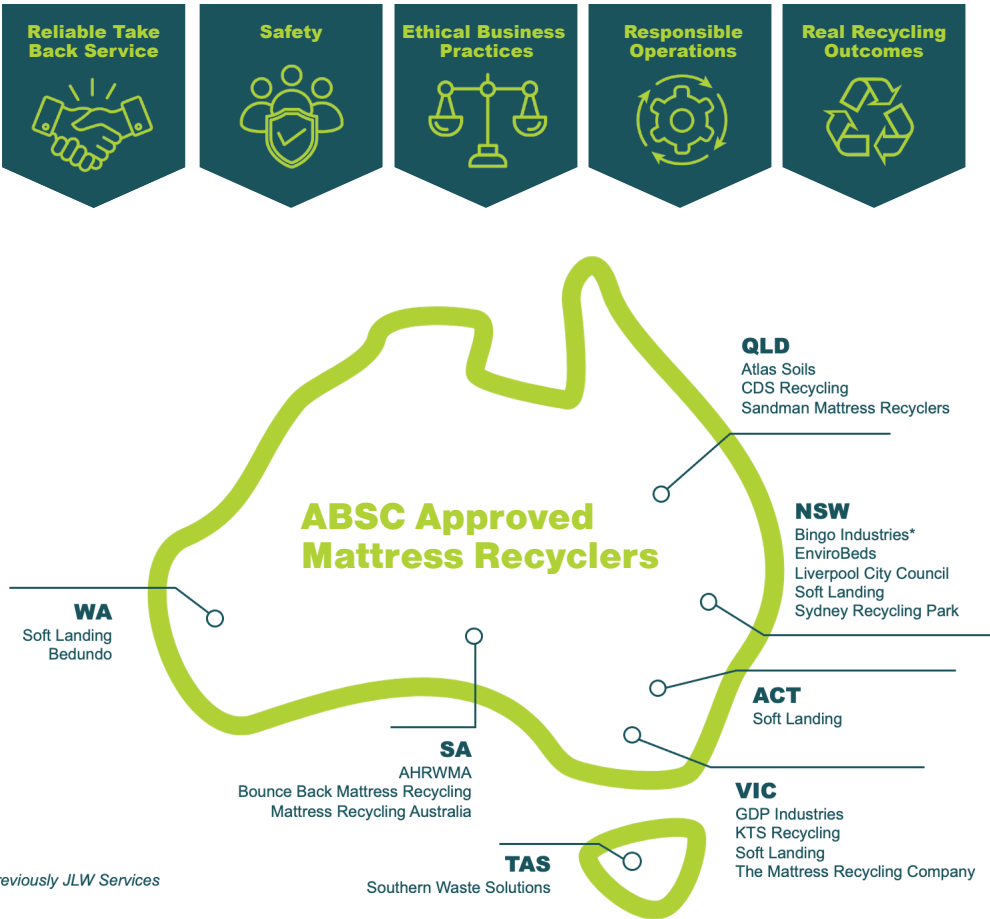

bedding.org.au

Every year, approximately 1.8 mattresses are discarded by Australians. This is a significant environmental problem, but it's one we are determined to solve. The ABSC is building a national network of approved recyclers, transforming end-of-life beds into valuable resources. We continue to expand the network of approved mattress recyclers, with a focus on underserved areas.

We acknowledge the complexities of this task and we are driven by our belief that our members can have a big impact on sustainability in Australia. The good news is that this mission aligns with what your customers already believe in. **Three-quarters of Australians are willing to pay more for locally produced products, and a strong majority value companies with ethical practices and a lower carbon footprint***. By choosing an ABSC Approved Recycler, you are not just offering a service, you are providing a solution that resonates with your customers' values and helps create a more sustainable Australia.

**Mattresses Matter Sustainability Survey by Soft Landing, June 2024*

Why Choose ABSC Approved Recyclers?

**Previously JLW Services*

ACT

Soft Landing

Social enterprise, manual dismantling. Residential, council & commercial.

We work closely with ABSC Approved Recyclers to deliver on real outcomes for recycling mattresses: recyclers play a vital role in turning waste into valuable materials, reducing landfill impact, and supporting a circular economy that benefits all Australians.

ABSC Approved Recyclers are committed to safe work practices, transparency in recycling outcomes, and ethical and responsible business operations.

We know how important access to ABSC Approved Recyclers is across the nation, so we continue to focus on expanding the recycling network. If you are working with a mattress recycler that is not currently approved, please let us know who they are so we can connect and discuss approval by emailing recycling@bedding.org.au.

Thank You.

The ABSC partners with bedding manufacturers, suppliers, and retailers to **Rethink, Redesign, Reuse, and Recycle** bedding, reducing waste and supporting practices that ensure that the bedding industry remains environmentally and commercially sustainable long into the future.
